### **Instructions**

Create the Domino and Frame Charms:

Drill the top center of the domino with the Dremel tool and bit. Use the multi purpose adhesive to glue the bail in.

Paint a layer of decoupage medium on the back side of the domino and adhere the dictionary paper. Seal with another layer of medium and adhere the bird image, sealing again. Optionally, you can outline the domino in metallic gold paint. Repeat for the remaining dominoes.

Make frame pieces just like the dominoes, outlining the image in gold.

Apply a layer of dimensional medium to each domino and frame and leave to dry.
