1404-1 Recycled Components

It's no secret that jewelry makers are going green! Some of today's most exciting jewelry features innovative uses of recycled and repurposed components.

Use found objects to create unique jewelry designs.

Domino jewelry is perennially popular among mixed media aficionados. Katie made this quick necklace using an Industrial Chic pendant by Susan Lenart Kazmer for Michaels, www.michaels.com. Other Industrial Chic charms also shown.

Attach a clip earring to costume jewelry to create a new version of an old favorite.

This green, beaded necklace from Katie's grandma's jewelry box needed a quick update! Katie attached a clip earring to add a bit of flair.
