## 1508-1 Crystal Beads

Crystals are a beader's best friend and, in today's show, we'll share ideas for everything from subtle sparkles to all-out bling. Whether you're making jewelry for yourself or for gifts, get ready to be inspired!

Here are a few sparkly treasures for your bead box!

All of these metal components incorporate SWAROVSKI ELEMENTS Chatons and Flatbacks and will add style, distinction and sparkle to your jewelry.

Clockwise from the top:

- Crystal encrusted filigree beads from EH Ashley, Inc., [www.ehashley.com](http://www.ehashley.com).
- Double-hole sliders from EK Success, [www.eksuccess.com](http://www.eksuccess.com).
- Handmade, collectible-style beads with multicolor crystal chatons from Crystal Clay, [www.crystalclay.com](http://www.crystalclay.com).

This everyday wear necklace is super easy to make. Simply connect an encrusted filigree bead and your favorite charms to a large metal ring. Attach the pendant to a necklace chain and you're ready to go!

Resources: Ring, wing, connector from TierraCast, [www.tierracast.com](http://www.tierracast.com); encrusted filigree bead from EH Ashley, [www.ehashley.com](http://www.ehashley.com); chain from Garlan Chain, [www.garlanchain.com](http://www.garlanchain.com).
