permanently colored wire

JUMP RING MAKER

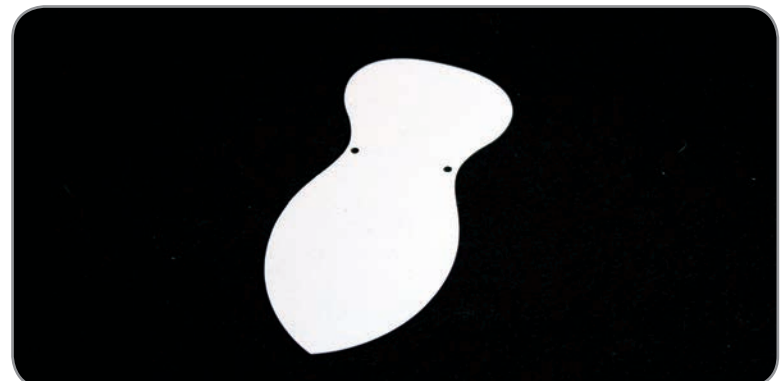

Step 1:

Using your Spellbinders Die Cutting machine cut the Small Goddess die out of Shrink Art Bright White plastic.

Step 2:

Using a 1/8th Fiskars hole punch, punch holes on both sides of Goddess prior to shrinking.

Step 3:

Following the instructions on the Shrink Art packaging, shrink Goddess. Note: Goddess will move around while shrinking but will lay flat at the end of process.

Step 4:

Using your Jacquard Pinata Inks apply darkest color first to applicator then apply next shade of color with lightest on top. Randomly sponge entire Goddess body until covered with inks. Let dry.

Step 5:

Using your beadalon Jump Ring Maker and 18g Artistic Wire make a coil for jump rings.

Step 5A:

Using your Beadalon Nippers, cut jump rings from coil. Starting at finished bottom point of coil with flush side of cutters facing away cut into 2 rows of rings, while holding rings with your fingers turn nippers over so the flush side of nippers are now facing opposite direction and cut. This will give both sides of your coil a finished edge.

Step 6 & 6A :

Using your Deluxe Coiling Gizmo and 22g lemon and seafoam grass Artistic Wire make a coil approximately 5 inches long. Remove the coil and finished step by creating a wire bead.

Note: visit the Beadalon YouTube Channel to watch the video on how to create a Wire Bead using your Deluxe Coiling Gizmo.

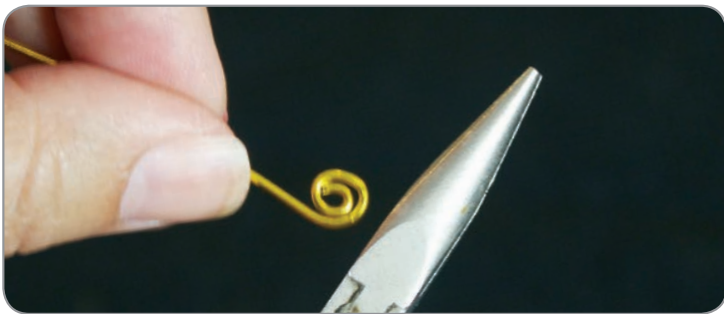

Step 7:

Add finished wire bead to Goddess by stretching bead and wrapping around middle section of body.

Step 8 & 8A & 8B:

Make a wire swirl using 22g Artistic Wire Lemon by cutting a piece of wire 4 inches long. Using your round nose pliers make a small loop at top of wire. Hold the loop with your Flat nose pliers at the very bottom of pliers. Note: this is the strong point of pliers and will help you to securely hold the loop with one hand. Continue to swirl until wire is completely gone.

Step 9:

Add Swirl to top of Goddess Pin using E6000 adhesive. Continue to add jump rings to and other embellishments such as the Jewel Keys.
