

<Materials>

Art Clay Silver Clay Type	7g
Round jump ring	1pc
Liver of sulphur	1 tsp

Completed piece (Center: project piece)

<Step by Step Guide>

1) Make a ball with 7g of clay, and press with your finger.

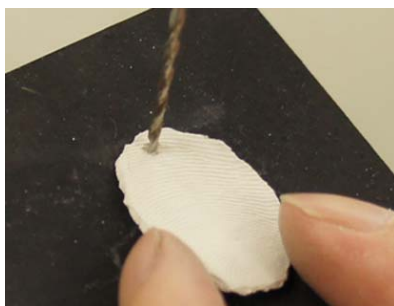

2) Place a pair of 1.5mm plastic strips on each side. Roll out the clay 1.5mm thick and make an oval shape.

3) Press your finger to make a fingerprint. You can also use stamps to add a name or date.
TIP: Fingerprint cannot be copied easily on dried surface. Please keep the clay surface moistened.

4) Dry completely. Break edges with some flat pliers to make a rough edge.

5) Drill a hole with a ϕ 1.5mm drill bit, and fire in a kiln at 1472F for 5 minutes.

6) Polish the entire piece with a stainless steel brush. Make a vintage finish with some liver of sulphur, and polish with a silver cloth and some silver polish. Attach a round jump ring into the hole and a chain. Then, finish.
