Time to create: 2-3 hours

Length of necklace: 30" not including tassel

Instructions:*To Create the Tassel...*

1. Remove suede lace from card and stretch to remove kinks.
2. Wrap lace around fingers until about 12" of cord is left. Cut lace.
3. Cut a piece 6" piece of wire and make a U shape with one side being about 1" long and the other 5" long.
4. Pass the wire through the loop of the laces so that the dip of the U cradles the loops of lace.
5. Make a wrapped loop to hold the lace in place and trim the end of the wire.
6. Use the 12" piece of lace to wrap around the top of the tassel. Make a knot so that the ends of the lace are trapped inside each other. Add a few drops of glue on either side of the knot where the lace is tied and let dry.
7. Slide the bead cap and cinnabar bead onto the long wire. Make a wrapped loop and trim excess wire.
8. Cut the loops of the lace to create the tassel's fringe.

To Create the Necklace...

9. Remove two strands of #6 silk cording with needle from the card. Stretch before using to remove kinks and prevent post-knotting stretching.
10. Holding both strands of the silk as one, tie a simple overhand knot about 2" from the end of the silk, at the very end of the 2m lengths of cord.
11. String a 32 aqua glass rounds and 8 aqua table cut Czech glass rounds.
12. Slide the first bead all the way down the cords to the knot.

13. Make an overhand knot and use the knotting tool to slide the knot as close as possible to the bead.
14. Use the thumb part of the tool to press the knot off the tool and next to the bead as close as possible.
15. Repeat this step for each of the strung beads, working your way down the prestrung beads.
16. When you get to the last bead, string 1 silver round, the loop from the tassel with the cinnabar bead and 1 silver round.
17. Make a knot with the knotting tool and string 8 aqua table cut Czech glass rounds and 32 glass rounds.
18. Knot remaining beads as before.
19. Finish the necklace by tying an overhand knot at the end of the necklace, holding all four strands of the silk as one.
20. (Optional) You may also add a clasp by using clamshell closures at the ends of the necklace with the clasp of your choice. Just string a clamshell with loop at the beginning and end of your necklace. Close the finding over the knot and add a clasp.
