### **WHICH LEATHER WORKS WITH WHICH TYPES OF DIES?**

Sizzix Mover & Shaper dies will cut both thicknesses of Sizzix leather. The heavier cow skin and the finer lamb skin. The mover & Shaper Dies are the steel rule dies that have a wood base and are magnetic.

The Sizzix Thinlits will only cut the thinner lamb skin leather. Do not use the heavier leather with your Thinlit dies.

When using leather from other sources you should be able to tell from its thickness which type of die to use. The heavy steel rule dies will cut veg tan which is like thick belt leather. You can find many choices of lambskin on ebay and etsy.
